# How it works

## ROUND 1

Players scratch to see if they are a winner. They can win up to \$50,000 instantly or uncover a “SPIN” symbol.

## ROUND 2

If players uncover a “SPIN” symbol, they can bring their ticket to a retailer for a digital reveal where they are guaranteed to win an instant prize from \$10–\$250, or a Big Spin. If a player’s digital spin lands on a “Big Spin” wedge, the player can scan a QR code on the back of the ticket for instructions on how to proceed to The Big Spin Wheel.

## ROUND 3

Big Spin winners must go to mdlottery.com to schedule an appointment to claim their prize at Lottery headquarters and physically spin The Big Spin Wheel to win a cash prize from \$50,000–\$250,000.

## How to check tickets.

### When presenting ticket to a sales associate

Players can give their scratch-off ticket to a sales associate to scan or process. When a ticket with “SPIN” is scanned, a digital wheel will automatically appear on the LIM monitor to reveal the prize won. An automatic prompt on the Lottery terminal will suggest asking players if they want to cash their ticket if the prize is more than \$100.

If a player wins a Big Spin on the digital wheel, the player will be directed to “Please check the back of your ticket on how to schedule an appointment.” The back of the ticket contains a blue box with a QR code that, when scanned, will take the player to the website for details on how to schedule an appointment to spin The Big Spin Wheel.

### When checking tickets on the self-service Maryland Lottery vending machine:

Players can scan their tickets on a self-service vending machine. If they are a winner, the PHD will prompt the player to watch the virtual spin. If they win an instant cash prize in the digital spin, the player is prompted again by the PHD screen to see if they want to print a voucher in order to cash their ticket. They can hold onto their voucher to cash at a later time if desired.

### When using the ticket checker:

Players can scan on the self-service ticket checker/scanner at the retailer, which is similar to scanning on the Maryland Lottery app. It will tell the player whether they are a winner and how much they have won.
