

Maryland Lottery CASH POP™ Put a little POP in your day.

The Maryland Lottery will be introducing the CASH POP draw game in May 2024. Players simply have to match one POP from 1-15 for a chance to win up to \$2,500.

The new game goes on sale Monday, May 6, 2024.

And that means more store traffic and higher Lottery sales for you.

How to Play:

- Pick a POP (number) from 1-15.
- Each POP selected gives the player a one in fifteen chance to win.
- Players can increase their chance of winning by purchasing multiple POPS for the same CASH POP drawing on the same ticket.
- Choose as many POPS from 1-15 as you like, including all 15.
- Play \$1, \$2, \$5, or \$10 on each POP selected per draw.
- The higher the play amount, the higher the potential payout.
- Tickets will show the POP(S) played per draw. The prize amount a player can win for each POP is selected by the terminal and will be displayed in the circle beneath the POP on the printed ticket the player receives.
- Win the printed prize by matching the POP(S) on the ticket to the winning POP (or number) drawn by the Lottery for that game.

Drawings:

- One POP will be drawn by the Lottery four times a day at 9 a.m., 1 p.m., 6 p.m., and 11 p.m.
- Play up to ten consecutive draws.
- Plays will be printed on separate tickets if multiple drawings are purchased.

Learn how to play within your limits at mdlottery.com/playresponsibly.
For help, call 1-800-GAMBLER. Must be 18 years or older to play.
